# Enviroscan SOLO

### The benefits

Try before purchasing (Sentec PVC tubes must be pre installed)  
 Continuous Soil Moisture Content monitoring.  
 Improves accuracy of setting irrigation full and re-fill points.

### The deal

Vineyards must have a Sentek monitoring tube sites pre-installed.  
 Pridham Viticulture hires the Enviroscan Solo continuous moisture monitor for a set period of time (minimum 2-3 weeks for best results).  
 We download information, collate and email moisture graphs directly to you.  
 We help you setup your full and re-fill points for irrigation.

### The cost

May, June, July, August	\$25/wk
September, October, March, April	\$60/wk
November, December, January, February	\$95/wk

\*Visit including reading, download and email - \$12 per visit.

If you are unsure about the benefits of installing this product we can offer a leasing option so that you can see how it works and how your vineyard can benefit from the data collected. You can then decide if you prefer to buy or continue leasing on a periodic basis.
