Fertiliser/Mulch Spreading

Pridham Viticulture provides fertiliser and mulch spreading services including broadcasting and banding. Our Seymour Spreader can be used in vineyards, olive groves, and broad acre applications. We also operate a 4WD loader with forks for bulk bags, and 2 bucket sizes for efficient handling of fertilisers or mulches. All our equipment is GPS capable for differential spreading applications.

Schedule of fees

Tractor, Spreader, & Loader - \$90.00p/h + GST

Transport

McLaren Vale region: \$120.00 flat rate. Other areas POA - depending on distance and/or truck transport requirement.

Variations in area covered per hour will occur due to individual block topography, ground condition, headland width, etc
