## Grower Liaison Services

Our service is a total package to liaise and coordinate crop requirements with grape buyers/wineries and contractors. The service is designed for wineries and growers with limited time and resources. We offer assistance to coordinate crop management for the maximum financial advantage to the winery and grower.

### **The service we provide covers:**

- All liaison with the winery and grower is provided on your behalf including contract specifications, contractual variations and advice.
  - An ongoing monthly audit of vineyard operations and records during growing season.
  - Arrangement of harvesting in cooperation with picking contractors, winery and grower.
    - Ongoing vineyard management as required.

### **The benefits are many and include:**

Quality information transfer  
Enhancement of grape quality  
Production of a product which meets winery expectations  
The potential to increase returns via differential grading  
Wineries deal with technically experienced staff  
Fine tuning of management systems

Negotiable rates based on specific requirements - contact Ben Pridham 0414 600 342
