Herbicide Services

Pridham Viticulture has extensive knowledge in the management and maintenance of high quality vineyard pastures. Our aim is to encourage as much biological diversity as possible to benefit the soil while minimising the use of chemical applications. Contact us to discuss options for your weed control strategies.

Our pasture management systems include:

- Nutrition & root development
- Weed control (herbicide & mechanical)
- Soil renovation
- Live stock systems
- Mulching techniques
- Biodynamic principles
