Under Vine Slashing

- Under-Vine slasher. The new addition to our land management systems.
- It is now easy and cost effective to remove or drastically reduce the need for chemical herbicides.
- There are no ongoing residual problems
- Under-vine mowing is very effective in managing plant growth while maintaining and improving soil biological activity.
- A single pass will mow undervine as well as slash the midrow (2 tasks in one pass).

Schedule of fees

Under vine slashing (2 tasks in one pass) \$105.00 per hour +transport

Other Spring services
